ORDINANCE NUMBER:

ISSUES: N/A

CASE MANAGER COMMENTS:

The property in question is an undeveloped area that takes access Anderson Mill Road. The lots to the north are developed with single family residences. To the south, across Anderson Mill Road, there is a commercial retail center (Plaza Volente). To the east, there is a water tower and single-family residences (Anderson Mill Neighborhood). The property to the west fronting N. FM 620 Road is developed with a pharmacy (CVS), an general retail sales-convenience use (Advanced Auto Parts), two financial services uses (BVVA Compass Bank, Wells Fargo Bank), a food sales/services station use (7-Eleven) and an automotive repair business (Tuffy's). The applicant is requesting to zone/rezone the property to the GR-MU district to develop retail uses on Tract 1 and a maximum of 72 multifamily residential units on Tract 2.

The staff recommends GR-MU-CO, Community Commercial-Mixed Use-Conditional Overlay District, zoning. The property meets the intent of the GR-MU combining district designation as it is proposed to be developed with a combination of office, retail, commercial, and residential uses that will provide services to meet surrounding neighborhood and community needs. The property will take access to an arterial roadway, Anderson Mill Road, and is located adjacent to commercial uses that front FM 620 Road to the south and west. The proposed multifamily development on Tract 2 will provide for additional housing opportunities in this area of the City.

The staff is recommending a conditional overlay that will prohibit the more intensive commercial uses that are permitted in the Community Commercial district adjacent to the single-family residences to the north and east. In addition, the CO will maintain a 50-foot wide landscape buffer along the eastern property line adjacent to the single-family residential lots from the previous zoning case C14-95-0167 (*please see Ordinance No. 96-0229-B - Exhibit C*).

BASIS FOR RECOMMENDATION:

1. The proposed zoning should be consistent with the purpose statement of the district sought.

Community Commercial district is intended for office and commercial uses serving neighborhood and community needs, including both unified shopping centers and individually developed commercial sites, and typically requiring locations accessible from major traffic ways.

Mixed Use combining district is intended for combination with selected base districts, in order to permit any combination of office, retail, commercial, and residential uses within a single development.

Conditional Overlay combining district may be applied in combination with any base district. The district is intended to provide flexible and adaptable use or site development regulations by requiring standards tailored to individual properties.

2. *The proposed zoning should promote consistency and orderly planning.*

The proposed GR-MU-CO zoning will permit the property to be developed with a combination of office, retail, commercial, and residential uses that will provide services to meet surrounding neighborhood and community needs. The property will take access to an arterial roadway, Anderson Mill Road, and is located adjacent to commercial uses to the south and west. The proposed multifamily development on the northern portion of the site (Tract 2) will provide for additional housing opportunities in this area of the City.

3. *Zoning should promote the policy of locating retail and more intensive zoning near the intersections of arterial roadways or at the intersections of arterials and major collectors.*

The property in question is located near the southwest intersection of two major arterial roadways, North FM 620 Road and Anderson Mill Road. This tract of land will take access to Anderson Mill Road and it is located adjacent to commercial uses to the south and west. The site under consideration is 1.5 linear miles from the Lakeline Regional Center, as designated by the Imagine Austin Comprehensive Plan and is less than 525 linear feet from the FM 620, a major arterial highway.

OTHER STAFF COMMENTS:

Comprehensive Planning

This zoning case is located on the north side of Anderson Mills Road, on a property that is 5.41 acres in size and undeveloped. The property is located approximately 525 linear feet east of FM 620 and 1.5 linear miles from the **Lakeline Regional Center**. Surrounding land uses include retail, medical offices, a single family subdivision and an elementary school to the north; to the south is an HEB grocery store and other retail uses; to the east is a single family subdivision; and to the west are a variety of retail uses. The proposal is to obtain mixed use zoning to construct 72 townhouse/condos on 3.57 acres of the site and retail uses on the remaining 1.84 acres of the property.

Connectivity

Public sidewalks are located along both sides of this section of Anderson Mills Road. There are unmarked and unprotected bike lanes located partially along both side of this section of Anderson Mill Road. There are no public transit stops located within approximately 1.25 linear miles from the subject property but there is a signalized pedestrian crossing at FM 620 and Anderson Mill Road. The mobility options in this area are fair, while the connectivity options are excellent.

Imagine Austin

The **Lakeline Regional Center** is located approximately 1.5 linear miles mile away from the subject property, but it is less than 525 linear feet from the FM 620, a major arterial highway with a variety of goods and services along it. As for Anderson Mill Road, while it is not designated as an Activity Corridor, it too acts as a major arterial road in this area of Austin and also contains a variety of goods, services, civic uses, and residential housing.

The following Imagine Austin policies are applicable to this case:

- **LUT P5.** Create healthy and family-friendly communities through development that includes a mix of land uses and housing types and affords realistic opportunities for transit, bicycle, and pedestrian travel and provides both community gathering spaces, parks and safe outdoor play areas for children.
- **HN P5.** Promote a diversity of land uses throughout Austin to allow a variety of housing types including rental and ownership opportunities for singles, families with and without children, seniors, persons with disabilities, and multi-generational families.
- **HN P11.** Protect neighborhood character by directing growth to areas of change and ensuring context sensitive infill in such locations as designated redevelopment areas, corridors, and infill sites.

Based on the fair to excellent mobility and connectivity options in the area, the above referenced policies that support missing middle housing and mixed use, and the developer proposing a true mixed use project under a mixed use zoning category, this project supports the Imagine Austin Comprehensive Plan.

Environmental

The site is located over the North Edwards Aquifer Recharge Zone. The site is in the Lake Creek and Bull Creek Watersheds, which are classified as Suburban Watershed and Water Supply Suburban Watershed, respectively, by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone and Drinking Water Protection Zone. The Lake Creek Watershed is in the Desired Development Zone and the Bull Creek Watershed is in the Drinking Water Protection Zone.

Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

Suburban Watershed

<i>Development Classification</i>	<i>% of Gross Site Area</i>	<i>% of Gross Site Area with Transfers</i>
Single-Family Residential (min. lot size 5750 sq. ft.)	45%	50%
One or Two Family Residential (lot size < 5750 sq. ft.)	55%	60%
Multifamily Residential	60%	65%
Commercial	65%	70%

Water Supply Suburban

<i>Development Classification</i>	<i>% of Net Site Area</i>	<i>% NSA with Transfers</i>
One or Two Family Residential	30%	40%
Multifamily Residential	40%	55%
Commercial	40%	55%

Development within a Water Quality Transition Zone is limited to 18%.

According to floodplain maps there is no floodplain within or adjacent to the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

Fire

No comment.

Parks and Recreation

Parkland dedication will be required for the new residential units proposed by this development, multifamily with GR-MU zoning, at the time of subdivision or site plan, per City Code § 25-1-601. Whether the requirement shall be met with fees in-lieu or dedicated land will be determined using the criteria in City Code Title 25, Article 14, as amended. Should fees in-lieu be required, those fees shall be used toward park investments in the form of land acquisition and/or park amenities within the surrounding area, per the Parkland Dedication Operating Procedures § 14.3.11 and City Code § 25-1-607 (B)(1) & (2).

If the applicant wishes to discuss parkland dedication requirements in advance of site plan or subdivision applications, please contact this reviewer: thomas.rowlinson@austintexas.gov. At the applicant's request, PARD can provide an early determination of whether fees in-lieu of land will be allowed.

Site Plan

Site plans will be required for any new development other than single-family or duplex residential.

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

Compatibility Standards

The site is subject to compatibility standards. Along the east property line, the following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of property zoned SF-5 or more restrictive.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, height limitation is 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property line.
- For a structure more than 300 feet but not more than 540 feet from property zoned SF-5 or more restrictive, 60 feet plus one foot for each four feet of distance in excess of 300 feet from the property zoned SF-5 or more restrictive.
- No parking or driveways are allowed within 25 feet of the property line.

- A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
- A landscape area at least 25 feet in width is required along the property line if the tract is zoned LR, GO, GR, L, CS, CS-1, or CH.

The site is subject to height compatibility standards. Along the northern property line, the following standards apply:

- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of property zoned SF-5 or more restrictive.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, height limitation is 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property line.
- For a structure more than 300 feet but not more than 540 feet from property zoned SF-5 or more restrictive, 60 feet plus one foot for each four feet of distance in excess of 300 feet from the property zoned SF-5 or more restrictive.

Demolition and Historic Resources

The applicant is responsible for requesting relocation and demolition permits once the site plan is approved. The City Historic Preservation Officer will review all proposed building demolitions and relocations prior to site plan approval. If a building meets city historic criteria, the Historic Landmark Commission may initiate a historic zoning case on the property.

Wildfire Urban Interface

This site is located within 150 feet of a wildland area, in the Wildland Urban Interface (WUI). Please see this website for more information about construction in the WUI:
<http://www.austintexas.gov/department/wildland-urban-interface-code>

Additional design regulations will be enforced at the time a site plan is submitted.

Transportation

The Austin Strategic Mobility Plan (ASMP), adopted 04/11/2019, identifies sufficient right-of-way for Anderson Mill Road. A traffic impact analysis is waived, the determination is deferred to site plan application, when land use and intensity will be finalized.

Name	Existing ROW	ASMP Required ROW	Pavement	ASMP Classification	Sidewalks	Bicycle Route	Capital Metro (within ¼ mile)
Anderson Mill Rd	115'	104'	68'	3	Yes	Yes	No

Water Utility

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance.

Based on current public infrastructure configurations, it appears that service extension requests (SER) will be required to provide service to this lot. City Council approval of the SER is required due to the property's location within the Drinking Water Protection Zone and outside the full purpose corporate limits (LDC 25-9-35). For more information pertaining to the Service Extension Request process and submittal requirements contact Alberto Ramirez with Austin Water, Utility Development Services at 625 E. 10th St., 7th floor. Ph: 512-972-0211.

The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

*** External Email - Exercise Caution ***

Ms Sirwaitis, thank you for your response. You probably are not aware that the Notice of Public Hearing for Rezoning (case # C14-2021-0090) which you attached in your email is incorrect. It shows a project location of: 11405, 11409, 11411 North FM 620 Road, but those are not the correct addresses for this rezoning case project which should show 11624-1/2 Anderson Mill Rd and El Salido Pkwy as the project location. I had a telephone conversation this morning with Mr Richard Mathias of the Mathias Company and pointed out to him the error in this public hearing notice. I asked him on behalf of my Canyon Creek HOA to request a postponed ZAPCO hearing date until at least late July 2021. I believe you will likely get a request from hMr Mathias or the owner, Magna Properties, confirming a request for postponement and reposting of this public hearing notice in the near future. Would appreciate hearing back from you on this public hearing postponement and new notice of a public hearing.

Thanks,
Randy Lawson

Ms Sirwaitis:

The applicant, Mathias Company, is requesting two tracts to be rezoned. My HOA is not as concerned about the retail tract rezoning request to GR-MU as much as we are about the proposed "multifamily" rezoning request which is apparently being proposed to go from I-RR to GR-MU. From what I know about the Austin LDC, GR-MU zoning is a big "upzoning" that is not necessary for a 72 condo unit tract. SF-5 or SF-6 zoning would be the normal zoning for a multifamily condo tract. We are concerned about an unnecessary upzoning above SF-5 or SF-6 because GR-MU will allow a huge amount of additional uses (besides multifamily) such as various retail and commercial uses that are not needed or wanted by nearby neighborhoods such as ours in order to accommodate a condo zoning district. Upzoning beyond normal zoning districts should not be allowed just because a developer/applicant asks for it. What are my HOA's options for protesting the upzoning to GR-MU? I assume that the Zoning and Platting commission will hear this case at some point in the future. Has that ZAPCO public hearing date been set yet? Are ZAPCO public hearings now back to "in person" hearings or is it still virtual? I would appreciate your feedback on this..

Thanks,

Randy Lawson - Director, Canyon Creek HOA

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

*** External Email - Exercise Caution ***

Hello Ms Sirwaitis,

I am writing to object to the proposed zoning changes for the addresses above, located at or near the intersection of FM620 and El Salido.

In particular, I strongly object to any multifamily projects in these lots. Such a project will place heavy traffic loads on El Salido which is already a high traffic street. Adjacent to the lots in question is the Purple Sage Elementary School and the Anderson Mill pool, park, and recreation area. Many children from the surrounding streets cross El Salido daily, they don't need to be exposed to even more heavy traffic.

There are duplexes across from Purple Sage and many nearby apartments and townhomes existing in the Anderson Mill limited District. Persons wanting multifamily homes can easily find them in our neighborhood.

The owners of these properties should develop using the zoning that was in place when they purchased the property.

Respectfully,

James Howard

I object to rezoning tract 1 and 2 in case number C14-2021-0090. My name is Michalyn Porter, and I live at 11616 Birchbark Trail. My phone number is (512) 994-7292.

I object based on my assumption this green space will be wiped out and filled with parking lots or similar, to accommodate the expansion of FM 620. Those of us in the neighborhood don't need the additional noise and fumes from the cars. The green space is home to birds, raccoons, opossums (who eat tons of ticks and other pests!), bats (who eat thousands of mosquitos!), squirrels, and other wildlife. The plants cool the environment around them and help reduce flooding. We should have MORE green space, not less.

Sincerely, Michalyn Porter

Yes, in that case I will recommend to my board that we not oppose a MF2 zoning.

Understood, but can we agree that assuming the plat remains exactly as is, with the only change being made is the removal of Plat Note 20, you would be supportive?
